

IMPROVE YOUR DIGITAL SECURITY AND ONLINE SAFETY

if you want a straightforward guide on enhancing the security of your online accounts, this is what you should focus on.

CREATE BETTER, LONGER AND COMPLEX PASSWORDS

Create always long, complex passwords which are unique for every account

PASSWORD MANAGER

Better use a Password Manager to create and store your passwords

Proton Pass

2-FACTOR AUTHENTICATION

Enable 2FA for your digital Accounts when ever possible

SECURE YOUR PUBLIC NETWORK ACCESS WITH VPN

Avoid open Wi-Fi, use a VPN Service. VPNs safeguard privacy by encrypting traffic

CHECK FOR PHISHING

Never click on Links in e-Mail, & validate your eMails & Messages
